DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see REMARKS, filed 11/08/2007 with respect to the objections to the specification and the drawings, have been fully considered and, in light of the new drawings submitted and the amendments to the specification, are persuasive. The objection of the specification and the drawings has been withdrawn.

1. Applicant's arguments filed on 11/08/2007, concerning the 35 U.S.C. 103 rejections over Hoerstrup DE 19919625, have been fully considered but they are not persuasive. The amendment of the claim limitations "comprising a broad edge" does not further limit the claim, since the heart valves and support structures used/created in the previously cited prior art would be similar, could be characterized as having "a broad edge".

Further, it has been held that changes in size, shape or proportion are an obvious design choice, *In re Rose*, 220 F.2d 459, 105 USPQ 237 (CCPA 1955), *In re Dailey*, 357 F.2d 669, 149 USPQ 47 (CCPA 1966), *Ex parte Rubin*, 128 USPQ 440 (Bd. App. 1959). See MPEP 2144.04 IV.

Conclusion

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
